

Applications

For all mini-spray nurseries and greenhouse applications.

Features and Benefits

Pressure compensated flow ensuring constant flow rate at varying inlet pressures.

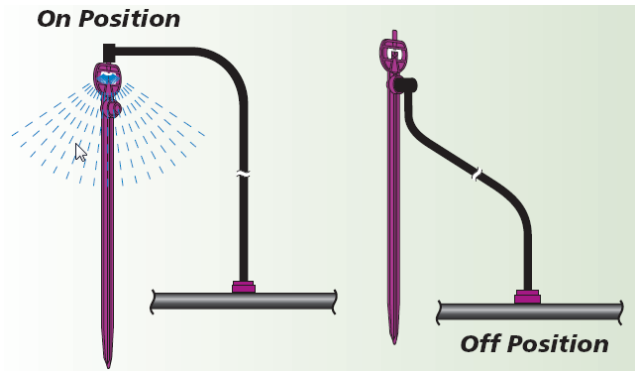

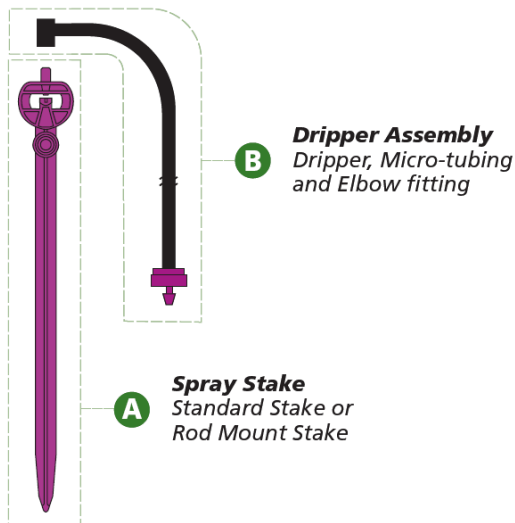

Ensures uniform water and nutrient distribution during irrigation.

Allows the installation of spray stake systems in areas with steeper slopes.

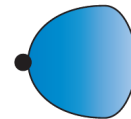

Uniform wetting pattern over the entire surface.

Horizontal connection.

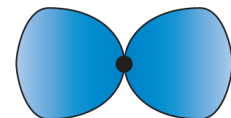

Water flow blockage mechanism to function when a pot is sold and/ or shifted from position to prevent water and fertilizer loss.

Ordering Guide	
Code	Description
01WPCJL12	Dripper 12 l/h CNL Junior for Plum Stake
01WPCJL25	Dripper 25 l/h CNL Junior for Grey Stake
SPRAY-ELL	Spray Stake Elbow for Plum and Grey Stake
SPRAY-GREY	Spray Stake Grey 6.6GPH Double Pattern
